

BOOST YOUR SYSTEM'S PERFORMANCE

with a \$25 Central Air or Heat Pump Tune-Up Rebate

Available for units three years or older that have not had a tune-up within the last two years. Must be completed by a licensed service technician.

Efficiency tip! With the change of seasons, remember to change your furnace filter. This will make your cooling unit more energy efficient and help save on your energy bill.

Sizzle, Don't Fizzle: Save Energy & Grow Summer Savings!

1. Install window coverings like blinds to prevent indoor heat gain during the day.

2. Seal leaks with caulk and weatherstripping.

3. Lower your water heater thermostat.

4. Run ceiling fans for additional cooling but turn them off when you leave the room.

5. Raise your thermostat. The smaller the difference between the indoor and outdoor temp, the more you'll save.
